**Student
Testimonial**

"Last year I completed the QQI, level 6 management course with the OTC and it has benefitted me greatly! I am a social care worker in the disability sector with no management experience until I enrolled in this course. The Certificate in Applied Management has taught me so much and landed me my first ever management position!!

Dear Colleagues,

**Award winning online management training for
leaders. Final call for applications!**

The OTC is now enrolling frontline managers (and those aspiring to be frontline managers), on our [Certificate in Applied Management](#). The course has been accredited since 1996 and has been described by students as 'top quality' and 'unbelievably relevant to our sector', not to mention it's potential for increasing one's promotional prospects, as mentioned in the flyer above.

Delivered by tutors with actual frontline experience, the course assignments tackle issues that students are likely to face in the workplace. This course is delivered flexibly in order to allow participants to work and study at the same time. Students only attend one workshop day per module via Zoom, and study the rest of the course in their own time, using our award winning elearning platform.

WATCH tutor and service manager, Joe McDonald, describe the real benefits of studying this popular course. [Watch Here.](#)

The OTC is of the sector, for the sector!

Best wishes,
Conor
