

Dear Subscriber, I hope this email finds you well.

Do you have a story to tell?

Might your qualification have opened some doors for you that previously were closed, and given you the chance of earning a valuable promotion?

Did your learning at the OTC inspire you to take on a new project that otherwise may still be on the shelf in your mind? How has it worked out?

Are you now running a service and what is that like? Are you using your learning to impact positive change in your sector?

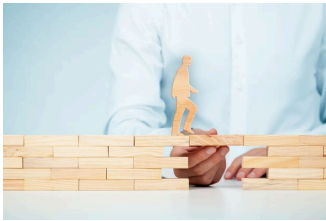

Might your studies have given you some opportunity that you only imagined before joining the OTC?

We would love to share your stories with other past pupils, current pupils and potential future students. I am convinced that your stories will inspire people to make changes themselves and make our sector a better place for service users.

Also, many managers and leaders in the sector are reading our OTC Times newsletter each month and they may be inspired by your story and they may wish to recruit you to instil that type of change in their organisation.

Your story doesn't need to be long. It can be a short paragraph if appropriate. Like any good story, it can be long or short!

Please share your story and inspire others! Not sure if it is appropriate? Lets have a brief chat! It would be great to hear from you.

The OTC is of the sector, for the sector!

Best wishes,
Conor
